

FINANCE FORMS

The Finance Forms included in this Volume are those approved under the *Public Finance (Management) Act* and are to be used as laid down in the Financial Instructions.

Some of the forms, which are not in use due to a change in procedures or otherwise discontinued, are not included. Because of the user's familiarity with the serial numbers of the Forms, they have been retained even where the Forms are reformatted. The discontinued Forms account for the gaps in the serial numbers.
